

Natural bathroom cleaning chart

- Remove stains in sinks and bathtubs with baking soda or soda crystals as a mild abrasive
- Use white vinegar or liquid soda crystals/bicarbonate soda to clean taps
- Use a mixture of white vinegar and water to clean mirrors
- Mix bicarbonate soda with water to make a mild cleaning cream
- Use soda crystals to scrub your toilet bowl
- Pour about 100 ml of vinegar into the toilet bowl and leave up to 30 min or overnight before flushing
- Pour some vinegar into the toilet brush holder to disinfect and to achieve a clean smell
- Combat the build-up of mould and mildew with a mixture of vinegar and borax or hydrogen peroxide or use a mixture of tea-tree oil and cyder vinegar
