

General cleaning - MYO (Mix-your-own)

1. Citrus multi-purpose cleaner

Use Citrus fruit peel such as lemon, lime, grapefruit and orange instead of tossing them into the compost

- Fill a glass jar with peel, tightly packed
- Fill up with vinegar until peel is covered
- Leave for 2-3 weeks until liquid turns dark and smells "citrusy"
- Add extra liquid if necessary to prevent mould build-up

Pour through sieve and fill into old spray bottle, add some liquid soap to reduce surface tension of water

2. Vinegar multi-purpose cleaner

Mix white vinegar and water in old spray bottle at roughly equal quantities to disinfect kitchen worktops and counter tops, door handles, clean floors and windows.

Add 1 tsp bicarbonate soda (optional).

3. Multi-purpose disinfectant

- 2 tsp borax
- 4 tbsp vinegar
- 750 ml / 25 fl oz / 1.5 pint hot water

Add some liquid soap to cut through grime
